

IPI eCONNECT

"A companion to every PCM worker in learning and upskilling in Singapore"

An enhanced mobile app, developed by ASPRI-IPI, allows Process workers to create their skill profiles and receive relevant Process news update and curated e-learning contents for "learning on demand", to enhance knowledge retention.

IPI eConnect also allows trainees to take online quizzes and course evaluation survey to improve the course deliverables, closer matching of trainee's expectations.

We aim to bring Process workers together seamlessly in receiving latest news, training updates and on-demand learning.

PCM Workers

Learning on demand,

<Free, Premium and Plant Owner Sponsored>
courses available

Training videos

for technical skill & safety
